## Manuale di installazione, lampione interrato

### Step 3

Lower the pole into the foundation and adjust the position of the heat-shrink tubing. Route the cables from the base to the access door.

### Passaggio 3

Calare il palo nella fondazione e aggiustare la posizione della guaina. Far passare le utenze dalla base fino alla portella.

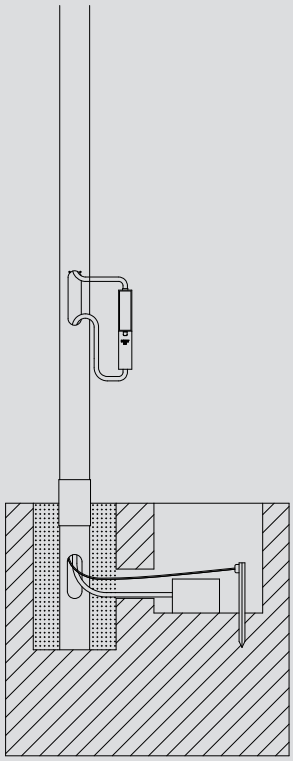

### Step 4

Connect the grounding wire.

### Passaggio 4

Attaccare la messa a terra.
